💼 PROFESSIONAL EXPERIENCE

Application Engineer
Cvent India ↗

Jul 2022 – present | Gurugram, India

- Monitoring tools such as Datadogs, NewRelic, and Splunk were used to monitor production, troubleshoot 80+ bugs, and suggest code fixes.
- Created DD synthesis to track the performance of the website and determine where the alert is coming from in order to easily diagnose the error.
- Excelled at troubleshooting customer-specific issues by providing technical expertise and resolution to 500+ client tickets, as well as providing customer-specific data and reports using SQL, Postgres, and Couchbase data storages, as well as Code Level Troubleshooting to identify bugs and potential issues in the application's smooth operation.
- Actively participated in the team building activities as well. Have received two Rockstar Awards for their performance in August and September. Also, get a 5+ exceptional rating on the client's ticket on providing quick resolution/workaround to solve the issue initially.

Application Engineer (Intern)
Cvent India ↗

Jan 2022 – Jun 2022 | Gurugram, India

- Worked on Datadog, Elastic Search, NewRelic, Splunk, and Couchbase
- Have expertise in Advanced SQL

🎓 EDUCATION

Bachelors of Technology in Computer Science
Noida Institute of Engineering and Technology

2018 – 2022 | Noida, India

📄 CERTIFICATES

Machine Learning Onramp (MathWorks)

Developing Soft Skills and Personality (NPTEL)

Cybersecurity Essentials ↗ (Cisco)

Cambridge English Entry Level Certificate in ESOL International ↗

(Cambridge Assessment English)

📁 PROJECTS

Camera Web App ↗
- It has functionalities such as Zoom In, Zoom Out, & Filters
- Flexibility to Download and Delete Photos on the fly
- Technology used: Javascript, HTML, CSS, BOM, DOM, IndexedDB

Textutils ↗
- It is a React website where we can play with the words, i.e. reverse, copy, clear, bold, italics the text
- It would give us the functionality to count the words.
- It has a dark and light theme available
- Each function after completion shows an alert

E-Notes ↗
- This is a complete MERN based project
- Have created a platform where we can write notes
- Have created APIs using thunder client
- Deletion, update and addition of notes is available

Microsoft Excel Clone ↗
- This is a Excel clone which has open, save, copy feature
- Formula evaluation, Cycle detection in formula, New open save functionality
- Technology used: Javascript, HTML and CSS

🧠 SKILLS

Programming Languages & Databases
Java, JavaScript, Python, DotNet, C, MySQL, MongoDB

Web Technologies & Frameworks
HTML, CSS, React.js, Node.js, BOM, DOM

Source Control & Data Tools
Git, Datadog, NewRelic, Splunk, ELK Stack, Elastic Search

🏅 AWARDS

2x Rockstar Award
Cvent India

500+ Data Structure & Algorithm Questions ↗
Leetcode
